**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

Claims 15, 22, 26, 27, 29, 30, and 33 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The instant claims have been amended to specify a polycarbonate blend where a polycarbonate of the blend has a viscosity average molecular weight of 15,000 or less and comprises 30 to 95 parts by weight of the blend. Basis for this amendment is asserted to be present at specification page 13. This passage states,

“a ratio in the blend compound between the polycarbonate resin I and the polycarbonate resin II is preferably selected so that the polycarbonate resin I having viscosity average molecular weight of 15000 or less is included by 30 to 95 parts by weight with respect to the blend compound.”

The specification specifically limits the blend to polycarbonate I and polycarbonate II. Also see Figure 5. The current claim language includes the situation where the polycarbonate resin blend is a polycarbonate and another non-polycarbonate resin (e.g., styrene-butyl acrylate). The specification does not provide basis for such an invention because the only disclosed blend is a blend of a first and second polycarbonate where the first polycarbonate has the properties specified. Also see spec. p. 11, l. 16-21.

Because the specification as filed does not provide basis for the claims as currently amended, the rejection against the instant claims is seen as warranted.

**Remarks**

Applicant's remarks and amendments are seen as sufficient to remove the previous grounds of rejection. In addition to those specification cites provided, the Examiner notes the discussion on page 27, lines 12+ concerning claims 30 and 33.

The remarks presented in the last Office action concerning Kemmesat '523 are reiterated for the claims as now presented (see paper # 21, p. 5).

**Conclusion**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
